Gardening In New England

Lexington Nurseries, Inc.

1265 Massachusetts Avenue

Lexington, Mass.

CONDITIONS OF SALE

Our terms are net cash. Charge accounts for 30 days credit may be opened upon receipt of satisfactory credit references. All prices F.O.B. Lexington, Mass. All orders accepted subject to stock being sold. Prices subject to change without notice.

GUARANTEE

We guarantee our plants to be healthy and free from injurious insect pests. To meet all the standards of the American Association of Nurserymen. To be packed properly to reach you in good condition. We guarantee our plants to be true to name. Any complaints on the above score must be made immediately upon receipt of goods. In no case do we assume liability for more than the purchase price. We cannot assume responsibility for the life of plants unless they are planted by our Service Department. Plants planted by our Service Department will be replaced at half-price putting the responsibility of after-care on you and the responsibility of planting them properly on us, unless gross negligence is found on your part in the after-care. We do not guarantee plants not planted by us since we have no control over them after they leave our hands. You can guarantee their success by giving them proper care. All agreements under this guarantee are contingent on the original bill having been paid in full within 30 days after date of invoice, unless other contract arrangements are made.

STANDARD NON-WARRANTY FOR SEEDS

The successful growing of seeds and bulbs, obviously depends in very large measure on weather conditions and proper cultural methods beyond our control; so conforming with the universal custom of the seed trade, we give no warranty, expressed or implied, as to the productiveness of any seeds or bulbs we sell, and we will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price of the seeds and bulbs.

GARDENING

in New England — 1947

“Buy from your local grower.” Give this considerable thought, and you will see why it is wiser and cheaper to do so. You can easily visit the nursery, and personally select the shrubs and flowers you wish. You know at once exactly what you are getting and whether the sizes and colors are suitable. Under the expert guidance of trained personnel, you select the varieties best adapted to your particular soil and location.

Our constant aim is to get and maintain satisfied customers. Our landscape crews are fully trained to provide the best in landscape designing and maintenance. A competent architect and draftsman is employed to draw up plans according to your desires. Every effort is made to create a garden that will be an inspiration and source of pleasure for years.

Our “Garden and Gift Shop,” long familiar to our many customers has been entirely redecorated. A complete line of tools and gifts is attractively displayed to make your selection easier. Our stock of insecticides, fertilizers and seeds is one of the finest in the country.

Just as this catalogue went to press, we received one of the largest shipments of garden implements in years. Many items which have not been on the market for a long time are now readily available here.

Our aim is to supply the best of materials and the best in services. We are confident that once you patronize us, you will make regular visits to our “One Stop Garden Center.”

If you plan to plant only a few plants, visit our sales grounds. For a complete landscape job, ask for a sales representative.

EVERGREENS

EVERGREENS are the preferred material for the more formal plantings about the foundations of buildings and at entrances. It is certain that they add a note of richness and permanency, not attainable otherwise. They vary in foliage-texture, and in size at maturity; these growth-habits should be borne in mind when making selections.

A B C D E
Code letters indicate type of growth.

CHAMAECYPARIS (Retinospora)

	Each	Per 10
<i>filifera</i> (E)		
Of rather low, spreading habit, with thread-like branches.		
18 to 24 inches	2.75	26.00
3 to 4 feet	6.00	55.00

	Each	Per 10
<i>filifera aurea</i> (E)		
Same as above except foliage is golden.		
15 to 18 inches	2.50	22.50
3 to 4 feet	7.00	65.00

	Each	Per 10
<i>plumosa</i> (B)		
This popular evergreen is sometimes known as "Plume Cypress", widely used for the medium to tall portions of a foundation planting. Can be confined by close shearing, but otherwise grows into a tall but attractive tree.		
18 to 24 inches	2.75	25.00
2 to 2½ feet	3.50	32.50
2½ to 3 feet	4.50	40.00
3 to 4 feet	6.00	55.00
4 to 5 feet	7.00	65.00

	Each	Per 10
<i>plumosa aurea</i> (B)		
Same as green <i>plumosa</i> except foliage is golden. Very attractive.		
18 to 24 inches	2.75	25.00
2 to 2½ feet	3.50	32.50
2½ to 3 feet	4.50	40.00
3 to 4 feet	5.50	50.00
3 to 4 feet	6.00	55.00
4 to 5 feet	7.00	65.00

	Each	Per 10
<i>plumosa lutescens</i> (D)		
Dwarf, creamy yellow, globe shaped. Excellent for foundation planting.		
18 to 24 inches	3.50	32.50

We have a great many large Evergreens for immediate effect. Prices on application.

JUNIPERUS (B)

	Each	Per 10
<i>chinensis pfitzeriana</i> (E)		
Pfitzer's Juniper		
One of the best low-growing evergreens for informal effect. Broadly spreading habit, with spiky, divergent branches. Good dark-green color, deepening in winter. Grows well in shade.		
18 to 24 inches	4.00	37.50
2 to 2½ feet	5.00	47.50
<i>columnaris</i> (C)		
Of narrow, pyramidal habit, needles fine; bluish-green in color. Ultimate height 15 to 20 feet.		
5 to 6 feet	10.00	95.00
6 to 7 feet	12.50	120.00
<i>communis hibernica</i> (C)		
Irish Juniper		
Very slender, columnar habit, dense and formal, bluish-green color. Should be in a sunny place, sheltered from winter winds.		
2½ to 3 feet	2.50	24.00
3 to 4 feet	3.50	32.50
<i>depressa plumosa</i> (E)		
Flat plumed Juniper		
Very hardy, excellent cover for rough slopes. Silvery green foliage turning to rich plum-purple in autumn and winter.		
18 to 24 inches	2.75	25.00
2 to 2½ feet	3.50	32.50
2½ to 3 feet	5.00	45.00
<i>excelsa stricta</i> (D)		
Spiny Greek Juniper		
Spiny, gray-green foliage; slow growing, broadly pyramidal in shape. A popular low evergreen.		
18 to 24 inches	3.50	32.50
2 to 3 feet	4.50	42.50
<i>japonica</i> (E)		
Japanese Juniper		
Low, spreading type, dark green foliage.		
18 to 24 inches	4.00	37.50
<i>keteleeri</i> (B)		
Keteleer Redcedar		
A broadly-columnar tree of medium rate of growth; foliage sharp-needed, dark bluish-green.		
5 to 6 feet	12.50	
<i>sabina</i> (E)		
Savin Juniper		
Dark green, fan-shaped, spreading. A valuable sort for low growth in evergreen groups.		
18 to 24 inches	4.00	37.50
2 to 2½ feet	5.00	47.50
<i>squamata meyeri</i> (E)		
Meyer Juniper		
Of unusual form, long silvery blue-green needles.		
15 to 18 inches	2.50	22.50

	Each	Per 10		Each	Per 10
PICEA canadensis (A)			White Spruce		
Native, silvery-green spruce that makes a symmetrical tall tree. Can be sheared for hedging purposes.					
18 to 24 inches	2.50	22.50			
2 to 3 feet	3.50	32.50			
excelsa (A)			Norway Spruce		
Makes a stately, dark-green tree, grows rapidly, useful for wind-breaks and hedges. Stands shearing.					
18 to 24 inches	2.25	20.00			
2 to 3 feet	3.00	27.50			
3 to 4 feet	4.00	37.50			
glauca conica (B)			Dwarf Alberta Spruce		
Very distinctive, light green, dense needles, perfect conical form. Fine for low plantings.					
12 to 15 inches	4.00	37.50			
15 to 18 inches	5.00	45.00			
PINUS nigra (A)			Austrian Pine		
A Pine with long, stiff needles, growing into a rugged tree. Thrives near salt water.					
3 to 4 feet	7.00				
montana mugus (F)			Mugho Pine		
Dwarf and compact, dark green. Among the best of the low-growing evergreens.					
18 to 24 inches	4.50				
strobus (A)			White Pine		
Another native evergreen of great value for landscape purposes. Responds well to shearing.					
2 to 3 feet	3.00	27.50			
3 to 4 feet	4.00				
PSEUDOTSUGA douglasii (A)			Douglas Fir		
A graceful, soft green Fir of rapid growth, making a symmetrical tall tree.					
3 to 4 feet	5.50	52.50			
TAXUS cuspidata (E)			Japanese Yew		
One of the most adaptable low-growing evergreens for ornamental planting; very hardy, thriving in unfavorable situations.					
12 to 15 inches	3.50	32.50			
15 to 18 inches	4.25	40.00			
18 to 24 inches	5.50	50.00			
cuspidata brownii (D)			Brown's Yew		
Dark green, globe shaped, excellent for foundation planting.					
12 to 15 inches	3.00	27.50			
brevimedia (E)			Hybrid Yew		
Slow, compact growth; rich dark green color. Less spreading than the preceding variety. Considered the finest of the spreading evergreens.					
2 to 2½ feet	8.00	75.00			
cuspidata capitata (B)			Upright Japanese Yew		
Equal to the spreading types in hardiness and richness of color. Growth slow; broad-pyramid shape.					
18 to 24 inches	6.00	55.00			
2 to 2½ feet	8.00	77.50			
2½ to 3 feet	10.00	95.00			
Intermedia (E)			Hybrid Yew		
Combines hardiness of Japanese Yew with attractive dark green foliage of English Yew. Low growing, spreading, very dense. Excellent for foundation planting.					
15 to 18 inches	4.50	42.50			
media hatfieldi (C)			Hatfield Yew		
An upright Yew of slow growth, with ascending branches that give it a broadly columnar shape. Dark green, rather coarse foliage; hardy.					
18 to 24 inches	7.00	65.00			
2 to 2½ feet	9.00	85.00			
3 to 4 feet	15.00	135.00			
			media hicksi (C)		
			Hick's Yew		
			More vase shaped than the preceding, attractive red fruit in fall. Excellent medium height hedge.		
			18 to 24 inches	6.50	62.50
			2½ to 3 feet	9.50	90.00
			Tardiva (E)		
			Dark green, broad, upright form especially good for hedges because of its density.		
			18 to 24 inches	5.50	50.00
			2 to 2½ feet	7.50	70.00
			THUJA occidentalis (C)		
			American Arborvitae		
			The native white cedar, much used for tall columnar effect and for hedges. Responds well to shearing.		
			18 to 24 inches	2.50	22.50
			2 to 3 feet	3.00	27.50
			3 to 4 feet	4.00	37.50
			5 to 6 feet	8.00	75.00
			6 to 8 feet	12.50	115.00
			8 to 10 feet	14.50	
			elegantissima (B)		
			Gold Tipped Arborvitae		
			Very showy and hardy, broad pyramidal type. Good for hedge or foundation, easily sheared.		
			3 to 4 feet	6.50	60.00
			occidentalis globosa (D)		
			Globe Arborvitae		
			Of characteristic spherical shape, which it retains without shearing. A favorite dwarf evergreen.		
			15 to 18 inches	3.00	27.50
			18 to 24 inches	4.00	37.50
			occidentalis hoveyi (D)		
			Hovey Arborvitae		
			Golden green foliage, fan-like branches; upright-oval in shape, of compact growth.		
			2 to 2½ feet	4.00	37.50
			occidentalis pumila (D)		
			Green Globe Arborvitae		
			18 to 24 inches	3.50	32.50
			2 to 2½ feet	4.50	40.00
			occidentalis pyramidalis (C)		
			Pyramidal Arborvitae		
			Narrow, tall growth fits it for use where space is restricted, and for accent in mass-planting. Holds its dark green color better than many varieties.		
			2 to 3 feet	3.00	27.50
			3 to 4 feet	4.50	42.50
			4 to 5 feet	6.00	55.00
			5 to 6 feet	8.50	80.00
			6 to 7 feet	11.00	100.00
			8 to 10 feet	15.00	140.00
			Wareana (A)		
			Ware Arborvitae		
			Heavy coarse foliage. Slow growing. Extremely hardy. Excellent for foundation planting.		
			18 to 24 inches	2.75	25.00
			2 to 3 feet	3.50	32.50
			3 to 4 feet	6.00	55.00
			4 to 5 feet	8.00	75.00
			TSUGA canadensis (A)		
			Canada Hemlock		
			The native Hemlock, normally growing into a tall tree; but it responds readily to shearing and thus becomes suitable for mass-plantings and hedges.		
			18 to 24 inches	3.75	35.00
			2 to 3 feet	4.50	42.50
			3 to 4 feet	8.00	75.00
			diversifolia (E)		
			Japanese Hemlock		
			Very dwarf, forms dense mass of foliage. Very desirable for foundation plantings, slow growing.		
			15 to 18 inches	4.00	37.50

EVERGREEN SHRUBS

In this group fall those desirable plants that bloom yet remain green all winter. Most are slow growing and do not attain great height. All will do well in the shade.

	Each	For 3	For 10	Each	Per 10
CALLUNA vulgaris				Scotch Heather	
Low tufts of evergreen foliage, with spikes of small pink flowers.					
6 to 8 inches75	2.00			
vulgaris alba					
White flowers.	.75	2.00			
DAPHNE cneorum				Rose Daphne	
Dwarf evergreen shrub, pink flowers from May on, very fragrant.					
Heavy 18 inch plants			\$3.00 each		
EUONYMUS radicans				Wintercreeper	
Evergreen vine with glossy leaves, clinging to any surface	.75	2.00	6.00		
Carrieri				Glossy Wintercreeper	
Glossy green foliage larger than other Euonymus vines. Will cling to walls. Yellow fruit in Autumn.					
3½ inch pot plants75	2.00	6.00		
Colorata				Purple-leaved Wintercreeper	
Beautiful for ground cover or growing along walls. Unusual in its red to purple coloring during the winter months; long narrow leaves. Grows equally well in sun or shade.					
12 to 15 inches	1.00	2.90	9.00		
radicans vegetus				Bigleaf Wintercreeper	
More rapid-growing than the other type, with broader leaves. A shrubby climber; but it may be clipped and formed into a low evergreen hedge.					
1.00	2.90	9.00			
HEDERA helix Baltica				Hardy English Ivy	
This valuable evergreen vine is hardy in Massachusetts in protected locations, when shaded from sunlight.					
3½ in. pots75	6.50			
LEUCOTHOE catesbaei					
Beautiful shiny green leaves, fragrant white flowers. Very useful in front of other evergreens.					
18 to 24 inches	4.50	42.50			
Maximum				Rhododendrons	
Of somewhat dwarf growth, this native variety combines well with the others in groups or borders. Flowers vary from almost white to deep pink, opening in late May.					
18 to 24 inches		6.00 each			
Catawbiense				Carolina Rhododendron	
A favorite native variety of medium growth. The flowers are lilac-purple in huge clusters, in June; foliage broad, dark green, oval in shape.					
15 to 18 inches	5.00 each				
18 to 24 inches	6.00 each				
2 to 2½ feet	7.50 each				
2½ to 3 feet	10.00 each				
ILEX glabra				Rosebay Rhododendron	
Small rounded leaves resembling boxwood; compact growth, with black berries in autumn.					
18 to 24 inches		5.00			
2 to 2½ feet		6.50			
Convexa					
Very bushy, completely covered with shiny, boxwood-like foliage. Showy. Grows anywhere.					
12 to 15 inches		2.75	26.00		
KALMIA latifolia				Mountain Laurel	
This native shrub is adapted to almost any location, preferring somewhat acid soil. Pink flowers in June.					
12 to 15 inches	3.00	27.50			
15 to 18 inches	4.00	37.50			
18 to 24 inches	5.00	47.50			
2 to 2½ feet	6.00	55.00			
3 to 4 feet	10.00	90.00			
PACHYSANDRA terminalis				Japanese Spurge	
Erect, evergreen ground cover for shady places. 3 in. pots.					
3.50 for 10		27.00 per 100			
PIERIS floribunda				Mountain Andromeda	
Flowers like Lily-of-the-Valley, on a compact shrub with foliage like a Laurel.					
15 to 18 inches	4.00	37.50			
18 to 24 inches	5.00	45.00			
2½ to 3 feet	10.00				
VINCA minor				Myrtle	
Bowles variety, an excellent ground cover, glossy evergreen leaves, lovely blue flowers.					
3 inch pots	4.00 for 10	30.00 per 100			
PYRACANTHA coccinea				Firethorn	
Showiest of evergreen shrubs, bright scarlet berries from September through winter. Tender; plant only in sheltered locations, and protect during winter. This finest of plants is well worth additional care necessary for culture here in New England.					
18 to 24 inches		3.50 each			
2 to 2½ feet		4.50 each			
Hybrid Rhododendrons — Seed Grown					
We can supply seed grown plants of the better-known Hybrid Rhododendrons, colors ranging from dark red to pink and white.					
15 to 18 inches		5.00 each			
Hybrid Rhododendrons					
Unlike seed grown hybrids, plants can be selected for color. Heavy full plants, well budded, red, pink, white, or lavender.					
3 to 4 feet		25.00 each			
4 to 6 feet		40.00 ea. up			

VINES AND CLIMBERS

	Each	For 3	For 10		Each	For 3	For 10
ACTINIDIA arguta				Bower Actinidia			
Vigorous growth; glossy, pointed leaves; white flowers; yellowish edible fruit.	.90	2.50	7.50	Small-flowered white variety, fragrant, blooming in September. Rapid-growing.	.90	2.40	7.50
AKEBIA quinata				Fiveleaf Akebia			
Graceful, quick growing, insect-free. Rosy purple flowers in May, followed by ornamental fruit.	.90	2.50	7.50	Henryi—Creamy White			
AMPELOPSIS heterophylla				Mme. Edward Andre—Rich, purplish red.			
A graceful vine with grape-like leaves and small porcelain-blue berries.	.75	2.10	6.50	Ramona—Light Blue			
quinquefolia engelmanni				LONICERA japonica halliana			
Improved Woodbine, with the characteristic five-part leaves, but clinging to any surface.	.75	2.10	6.50	Hall's Japanese Honeysuckle			
TRICUSPIDATA (Veitchi)				Almost evergreen foliage, with white and yellow flowers. Grows in sun or shade; and is a good ground-cover for rough slopes.			
Boston or Japanese Ivy				Pot plants50	1.40	4.50
Excellent cover for brick or masonry walls. Clean, glossy foliage that turns crimson in the fall.				2 year heavy90	2.50	7.50
2-year plants75	2.10	6.50	heckrottii			
ARISTOLOCHIA siphon				Everblooming.			
Vigorous vine with huge heart-shaped leaves; excellent for creating shady porches, etc. Purple flowers of curious pipe-like form.	1.50	Each		2-year, 2 to 3 feet90	2.40	7.50
BIGNONIA radicans				LYCIUM chinense			
Trumpet Vine				Chinese matrimony vine			
Old-fashioned, sturdy vine with pinnate leaves, and large orange-scarlet, trumpet-shaped flowers in August.	.75	2.10	6.50	Purple flowers, scarlet fruit.	.90	2.50	7.50
Madame Gallen				POLYGONUM auberti			
Blossom continuously throughout summer and fall, producing enormous flowers of spectacular tawny orange. Easy to grow, hardy.	1.10	3.00	10.00	Rapid-growing, thick-foliaged vine, with fleecy white flowers in July and August.	1.00	2.75	8.50
CELASTRUS orbiculatus				VITIS labrusca			
Oriental Bittersweet				Large, thick leaves, purple fruit.			
More vigorous than the native variety.	1.00	2.75	8.50	.75	2.10	6.50	
scandens American Bittersweet or Roxbury Waxwork				WISTERIA sinensis			
An old-fashioned native vine, prized for its showy yellow and red fruit useful for winter bouquets.	1.00	2.75	8.50	Clusters of bluish-purple flowers in May. Wisterias are strong climbers, requiring a substantial trellis or other support. Will grow in sun or shade, with little attention.			

TREES FOR SHADE AND ORNAMENT

Deciduous trees are a major element in the landscape "picture"; plant them with due regard for their size at maturity — ten, twenty, or thirty years from now. As a rule, they should be at least 25 feet from buildings or from each other.

	THE MAPLES	Each	Per 10
ACER palmatum atropurpureum	Japanese Red Maple		
Dwarf, slow-growing, with purplish-red foliage.			
3 to 4 feet	8.00	75.00	
platanoides	Norway Maple		
Best variety for shade, or for street planting. Yellow flowers. Dense, dark green foliage; brilliant autumn coloring.			
8 to 10 feet	4.50	42.50	
10 to 12 feet	6.00	55.00	
12 to 14 feet	9.00	85.00	
p. schwedleri	Schwedler's Maple		
A Norway Maple with bronzy-purple leaves.			
10 to 12 feet	8.50	80.00	

rubrum	Red or Swamp Maple	
Good for moist spots. Red flowers in spring; red foliage in the fall.		
6 to 8 feet	4.00	37.50
8 to 10 feet	5.00	47.50
10 to 12 feet	6.00	55.00
saccharum	Sugar or Rock Maple	
The native Rock Maple; pyramidal growth; bright yellow foliage in autumn. Excellent for street planting.		
8 to 10 feet	5.50	52.50
9 to 11 feet	6.50	62.50

THE BIRCHES			
BETULA alba	European White Birch		
Upright growth; white bark as the tree matures.			
8 to 10 feet	5.00	45.00	

OPEN SUNDAYS AND EVENINGS DURING APRIL, MAY AND JUNE

		Each	Per 10	Each	Per 10
<i>pendula gracilis</i>	Cut-leaved Weeping Birch			<i>MORUS alba tatarica</i>	Russian Mulberry
Slender, graceful tree with drooping branches, for decorative planting as a lawn specimen.				Upright-growing tree, with edible berries attractive to birds.	
6 to 7 feet	3.50	30.00	8 to 10 feet	5.00	45.00
8 to 10 feet	6.50				
<i>papyrifera</i>	Canoe Birch			<i>PLATANUS orientalis</i>	Oriental Plane Tree
The paper or canoe birch with handsome loose head and large leaves. Bark white as tree gets older.			One of finest of all shade trees, large leaves, bright bark, almost disease free.		
6 to 8 feet	4.00		8 to 10 feet	6.00	55.00
			10 to 12 feet	7.50	70.00
<i>CERCIS canadensis</i>	Red-bud or Judas Tree			<i>POPULUS nigra italica</i>	Lombardy Poplar
Small tree, with deep rose-pink flowers in early spring.			Upright, narrow growth, useful for screening purposes. May be planted as close as three feet apart if desired.		
4 to 5 feet	2.50		8 to 10 feet	2.50	22.50
<i>CORNUS florida</i>	Flowering Dogwood			<i>PRUNUS</i>	
One of the best flowering trees; spreading habit. This native variety has white flowers in May. Brilliant autumn foliage.					
3 to 4 feet	4.00	37.50	<i>Beni Higan</i>		
4 to 5 feet	5.00	45.00	Single Pale pink.		
5 to 6 feet	6.50	60.00	5 to 6 feet	5.00	
6 to 8 feet	10.00	90.00	6 to 8 feet	9.00	85.00
8 to 10 feet	13.50	130.00	<i>Kwanzan</i>	Pink-flowering Cherry	
<i>florida rubra</i>			Double, bright pink flowers in profusion. The Japanese Cherries should be planted in sheltered locations.		
Pink flowering variety.			5 to 6 feet	5.50	
3 to 4 feet	6.50		<i>Kofugen</i>		
4 to 5 feet	8.50		Double, very deep pink.		
5 to 6 feet	12.00		3 to 4 feet	3.25	
6 to 7 feet	16.00		<i>subhirtella pendula</i>	Japanese Weeping Cherry	
			Slender, drooping branches with single pink flowers.		
<i>CRATAEGUS cordata</i>	Washington Hawthorn		1-year heads	5.00	
Single white flowers, followed by showy red fruit; autumn foliage brilliant scarlet.			<i>Subhirtella autumnalis</i>		
4 to 5 feet	4.00		Unusually profuse bloomer, pink to nearly white flowers; black fruit in Fall.		
<i>oxyacantha splendens</i>	Paul's Scarlet Hawthorn		5 to 6 feet	5.00	45.00
Very double scarlet flowers; red fruits. Compact growth.			<i>Shirofugen</i>	Siebold Cherry	
5 to 6 feet	7.00		Double flowers, deep pink. Upright growth.		
6 to 8 feet	8.50		5 to 6 feet	5.50	
<i>GINKGO biloba</i>	Maidenhair Tree		<i>QUERCUS palustris</i>	Pin Oak	
This insect-free tree turns a beautiful golden yellow with fall. Tall growing, very interesting fan-shaped leaves. Fine for lawn or street.			One of the best avenue trees; rapid growth, with spreading branches and clean, glossy foliage.		
8 to 10 feet	7.00		8 to 10 feet	6.00	55.00
<i>LIQUIDAMBAR styraciflua</i>	Sweet Gum		<i>rubra</i>	Red Oak	
Star shaped leaves turn bright red in fall. Good.			Also an excellent street or avenue tree, broad and symmetrical.		
8 to 10 feet	7.50		8 to 10 feet	6.00	
9 to 11 feet	10.00	90.00	<i>SALIX Niobe</i>	Golden Weeping Willow	
<i>MAGNOLIA Soulangiana</i>	Saucer Magnolia		Long, pendulous, golden yellow, thread-like branches.		
Distinguished for its large, rose-pink flowers in early spring. It should be planted in a place sheltered from wind.			6 to 8 feet	3.50	32.50
3 to 4 feet	7.50		8 to 10 feet	5.00	45.00
<i>MALUS atrosanguinea</i>	Carmine Crab		10 to 12 feet	7.50	70.00
Deep scarlet blossoms, very attractive.			<i>SORBUS aucuparia</i>	European Mountain Ash	
4 to 5 feet	3.50	32.50	Attractive, upright-growing, with showy clusters of scarlet berries in late summer.		
6 to 8 feet	5.00	45.00	6 to 8 feet	3.50	32.50
<i>floribunda</i>	Japanese Flowering Crab		8 to 10 feet	5.00	45.00
Deep rose-colored blossoms, followed by red fruits.			10 to 12 feet	7.00	65.00
4 to 5 feet	4.00	35.00	12 to 14 feet	10.00	95.00
6 to 8 feet	7.00	65.00	Heavy Specimens	15.00 to 25.00	
<i>Ioensis plena</i>	Bechtel's Crab		<i>TILIA vulgaris</i>	Common European Linden	
Double rose-pink flowers; a striking ornamental tree.			Symmetrical tree, with small, dark-green leaves. Good for street planting in cities.		
3 to 4 feet	2.50		Excellent shade or street tree for city conditions.		
4 to 5 feet	4.00		8 to 10 feet	6.50	60.00
<i>Scheideckeri</i>	Scheidecker Crab		<i>ULMUS americana</i>	American Elm	
Early-flowering; pale pink, semi-double. Yellow fruit.			Our native Elm, a characteristic New England tree.		
5 to 6 feet	4.00	37.50	8 to 10 feet	4.00	37.50
<i>spectabilis</i>	Chinese Crab		10 to 12 feet	6.00	55.00
Semi-double, coral red flowers; yellow fruit.			<i>pumila</i>	Siberian Elm	
6 to 8 feet	6.00	55.00	Rapid-growing, spreading variety, useful for screening and shade-tree purposes.		
			8 to 10 feet	4.50	42.50

Shade and Flowering Trees

Gorgeous Accent Plants For Lawn and Garden

For complete list and descriptions
see pages 7 and 8

BETCHELS CRAB. Exquisite pink blossoms, followed by yellow fruit. 4 to 5 ft. B&B. \$4.00 each

JAPANESE CHERRY. Same as famous Washington Cherries. 5 to 6 ft. B&B. \$5.00 each.

WHITE DOGWOOD. Excellent for shade, abundant red fruit. 5 to 6 ft. B&B. \$6.50

FLOWERING CRABS. Flowering trees can be used as a screen because of their dense growth. We offer many sizes and varieties of these.

PINK DOGWOOD. Same as white except blossoms are pink. 4 to 5 ft. B&B. \$8.50 each.

ORIENTAL PLANE. An unusual shade tree that grows majestically. 8 to 10 ft. \$6.00 each.

MOUNTAIN ASH. Showy fruit in September and feathery foliage. Highly desirable. 8 to 10 ft. \$5 each.

HARDY FLOWERING SHRUBS

For year round beauty, lovely flowers, attractive fruit, and brilliant foliage, select varieties that will provide a succession of bloom.

ALTHAEA COELESTIS

Rose of Sharon. Blooms from August until frost. Choice of five colors. 2 to 3 ft. \$1.25 each.

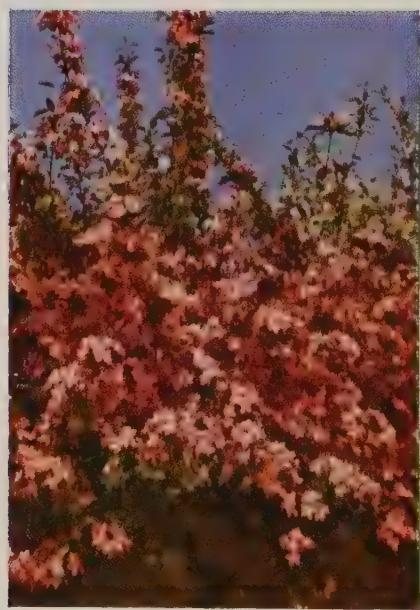

See pages
11, 12, 13

BUTTERFLY BUSH. Blooms from early Summer until frost. Three lovely colors—Charming, pink; Ile de France, lavender; Dubonnet, red. Heavy 3½ in. pot plants. 75c each. All three for \$2.00.

ARONIA. *Aronia brilliantissima.*
Very showy fruit, white flowers. 2 to 3 ft. \$1.25 each.

KOLKWITZIA. *Beauty Bush*
Profuse blooms in late May.
3 to 4 ft. \$1.60 each.

GLETHERA ALNIFOLIA

Summersweet. Thrives in shade, delicately fragrant blossoms. 3 to 4 ft. \$1.75 each.

WEIGELA GUSTAVE MALLET. June flowers in abundance.
Very showy. 3 to 4 ft. \$1.50 each.

FLOWERING SHRUBS

To this popular group belong many of the old standby New England plants. They are economical to plant, yet one can, by careful selection, have a border or group of these plants that will bloom from early Spring until well into the Fall. Many have colorful foliage, and bear lovely fruit in addition to their blossoms.

		Each	Per 10
AMORPHA fruticosa	Indigo Bush		Butterfly Bush
Dark purple flower spikes, fairly tall grower. Unique and little known though one of the best shrubs.			
3 to 4 feet	1.60	14.00	75 6.50
ARONIA brilliantissima	Chokeberry		
Excellent for damp locations. Very showy, white flowers; bright red fruit.			
2 to 3 feet	1.25	11.50	
HARDY AZALEAS			
AZALEA arborescens	Sweet Azalea		
Upright growth; white or pale pink flowers in June.			
18 to 24 inch	3.50	32.50	
calendulacea	Flame Azalea		
Flaming yellow to orange-red flowers in late May.			
18 to 24 inch	5.00	45.00	
canescens	Piedmont Azalea		
Upright growing with white or pink blossoms in May.			
18 to 24 inch	3.00	27.50	
kaempferi	Torch Azalea		
Of Japanese origin; fiery red to salmon-pink flowers.			
12 to 15 inch	3.25	30.00	
15 to 18 inch	4.00	37.50	
18 to 24 inch	5.00	45.00	
mollis	Chinese Azalea		
Masses of large flowers in variable colors ranging from yellow to red and orange; dwarf, compact growth.			
15 to 18 inch	2.75	26.00	
mucronulata	Mongolian Azalea		
One of the earliest flowering, rosy lavender blossoms.			
18 to 24 inch	4.00	37.50	
2 to 2½ feet	5.00	45.00	
nudiflorum	Pinxter Azalea		
Shining green leaves, pink flowers, blooms in early May.			
3 to 4 feet	9.00	85.00	
vaseyi	Pinkshell Azalea		
Tall growth, with profusion of shell-pink flowers in May.			
18 to 24 inch	3.50	32.50	
ACANTHOPanax (Aralia) pentaphyllum	Five-leaved Aralia		
Waxy, five-parted leaves on arching, spiny branches.			
3 to 4 feet	1.20	10.00	
BERBERIS thunbergii	Japanese Barberry		
Used chiefly for hedging; but also an excellent dwarf shrub for grouping in the border. Graceful habit of growth; its red berries in autumn are showy. Will grow in shade.			
12 to 15 inch40	3.50	
atropurpurea	Red-Leaved Jap. Barberry		
Highly decorative foliage stays red all summer.			
18 to 24 inch	1.25	11.00	
BUDDLEIA			
The Buddleias are invaluable shrubs for midsummer bloom, bearing spikes of showy flowers from June until frost. They prefer a sunny location, with rich soil.			
2 year			75 6.50
Charming —New pink variety of great merit.			
Ile de France —Improved variety, with rosy purple flowers.			
Dubonnet			
Dark red flowers, new and good.			
CALLICARPA purpurea	Chinese Beautyberry		
Small growing, pale pink flowers, gorgeous violet colored fruit. Very extraordinary.			
2 to 3 feet			1.25 11.50
HANSEN'S BUSH CHERRY			
Sensational new shrub; delicious fruit borne on arching branches; grows from 4 to 5 feet tall. Delightful for use as ornamental shrub as well as for practical uses. Covered with pink flowers in early Spring; foliage silvery green turning to red and gold in fall.			
\$2.00 each			3 for \$5.50
CORNUS alba (sibirica)	Red-barked Dogwood		
A tall shrub valued for its red bark; flowers small; fruit bluish-white in clusters. Will grow in shady places.			
3 to 4 feet			1.20 10.00
stolonifera flaviramea	Golden-twigs Dogwood		
Yellow bark, low-growing.			
3 to 4 feet			1.20 10.00
alternifolia	Pagoda Dogwood		
Whiteflowers, black fruit, blooms June.			
4 to 5 feet			1.50 12.50
COTONEASTER DIVIRACATA	Spreading Cotoneaster		
Prostrate growth, almost evergreen, with red berries in autumn. Useful as a ground cover or rock-garden plant.			
2 to 3 feet			1.50 14.00
CLETHRA alnifolia	Summer Sweet		
Valuable for shady or moist locations. Glossy foliage, with spikes of intensely fragrant white flowers in June.			
3 to 4 feet			1.75 15.00
4 to 5 feet			2.00 17.50
CYDONIA (Chaenomeles) japonica	Japanese Quince		
An old-time favorite because of its brilliant early bloom, varying from orange-scarlet to flame-pink. Large yellow fruits. Spreading habit; will grow in partial shade.			
18 to 24 inch			1.00 *9.00
DEUTZIA gracilis	Slender Deutzia		
One of our best dwarf shrubs; a mass of white flowers in June.			
12 to 15 inches			90 8.50

Deutzia (continued)		Each	Per 10
Lemoinei		Lemoine Deutzia	
Grows to medium height; flowers white in profusion.			
18 to 24 inches	1.25	11.50	
scabra "Pride of Rochester"	Tall Pink Deutzia		
Double white and pink flowers in June; a favorite.			
3 to 4 feet	1.20	10.00	
4 to 5 feet	1.75	16.00	
EUONYMUS alatus	Winged Burning-bush		
Valuable as a shrub for shady or dry locations, as well as for general use. Its bark is in corky ridges; foliage clean and attractive, turning brilliant scarlet in the fall.			
2 to 3 feet	1.50	13.50	
	Each	Per 10	
alatus compacta			
Dwarf form of the preceding.			
2 to 3 feet	1.75	16.00	
FORSYTHIA intermedia spectabilis	Showy Forsythia (Goldenbell)		
The best of the Forsythias; yellow flowers in April.			
2 to 3 feet90	8.00	
3 to 4 feet	1.20	10.00	
suspensa	Weeping Forsythia		
Characteristic yellow flowers, on slender drooping branches.			
3 to 4 feet	1.20	10.00	
HIBISCUS syriacus	Rose-of-Sharon or Shrub Althaea		
Hollyhock-like flowers in August and September; tall, upright growth. For sunny, sheltered locations. Single or double flowers, in blue, red, white, pink, or purple.			
2 to 3 feet	1.20		
HYDRANGEA arborescens grandiflora	Snowhill Hydrangea		
Globular clusters of white flowers in midsummer; low-growing.			
2 to 3 feet	1.25	11.00	
paniculata grandiflora	"Pee Gee" Hydrangea		
Cone-shaped heads of white flowers in September, turning pink with frost. Grows in poor soil; should be closely pruned.			
3 to 4 feet	1.20	10.00	
ILEX verticillata	Winterberry		
Glossy green foliage; bright red fruit in fall.			
2 to 3 feet90	8.00	
3 to 4 feet	1.50	13.50	
KOLKWITZIA amabilis	Beauty-bush		
Profusion of small, trumpet-shaped pink flowers			
2 to 3 feet	1.25	11.00	
3 to 4 feet	1.60	15.00	
LONICERA fragrantissima	Winter Honeysuckle		
Fragrant, creamy-white flowers; vigorous growth, useful for poor soil or shady places.			
2 to 3 feet90	8.00	
3 to 4 feet	1.25	11.50	
morrowi	Morrow's Honeysuckle		
Shrub of medium height, with yellowish flowers.			
2 to 3 feet90	8.00	
3 to 4 feet	1.25	11.50	
tatarica rosea	Tatarian Honeysuckle		
Tall shrub with pink flowers and red berries. Good for shady locations.			
3 to 4 feet	1.20	10.00	
Lonicera (continued)	Each	Per 10	
T. alba	White Tatarian Honeysuckle		
Same as above, flowers white.			
3 to 4 feet	1.20	10.00	

PHILADELPHUS coronarius		Sweet Syringa or Mock-orange		
Tall shrub, not particular as to soil conditions. Flowers in June, white, orange-blossom scented.				
3 to 4 feet		1.20		10.00
Avalanche				
Slender branches covered with white flowers dwarf grower.				
2 to 3 feet		1.25		11.50
Bouquet Blanc				
Fragrant, white blossoms, dwarf.				
2 to 3 feet		1.25		11.50
virginalis		Virginal Mock-orange		
Large, imperfectly-double white flowers resembling roses, with orange-blossom odor. A favorite shrub.				
2 to 3 feet		1.50		13.50
PRUNUS glandulosa rosea		Double Pink Almond		
Double pink rose-like blossoms, closely-set along the branches in early spring.				
2 to 3 feet		1.75		15.00
RHODOTYPOS kerrioides		Jet-bead or White Kerria		
Medium-growing shrub with four-petaled white flowers, followed by the characteristic jet-black seeds.				
2 to 3 feet		1.25		11.50
SPIRAEA bumalda, Anthony Waterer		Anthony Waterer Spirea		
One of the best dwarf shrubs. Bright pink flowers in flat heads during midsummer.				
18 to 24 inches		1.25		11.50
arguta		Garland Spirea		
Early flowering, white blossoms covering whole stem.				
3 to 4 feet		1.25		11.50
Van Houttei		Van Houette Spirea		
Perhaps the best-known of the Spireas and the most universally planted. Its clusters of small white flowers on arching branches are always admired. Blooms in mid-May.				
3 to 4 feet		1.25		11.50
SYMPHORICARPOS				
racemosus		Common Snowberry		
A popular shrub best known for its large white fruits.				
3 to 4 feet		1.25		11.50
vulgaris		Coralberry or Indian Currant		
Of medium growth, with clustered red berries. All varieties of Symphoricarpos may be planted in shady spots.				
3 to 4 feet		1.25		11.50
SYRINGA chinensis				
Vigorous shrub; violet-blue flowers in June.				
2 to 3 feet		1.20		11.00
Lilacs (continued)		Each		
villosa		Late Lilac		
Pinkish lilac blooms in late June. Ideal for screens.				
3 to 4 feet		1.60		14.00
vulgaris		Common Lilac		
2 to 3 feet90		8.00
3 to 4 feet		1.20		10.00
4 to 5 feet		1.50		13.50
vulgaris alba		Common White Lilac		
2 to 3 feet		1.50		13.50

HYBRID LILACS

Of somewhat slower growth than the Common Lilacs, but of varied colors. 3 to 4 feet. Price, \$3.00 each.

Katherine Havemeyer — Double, lilac pink.

Ludwig Spaeth — Single, dark red Lannes.

Michel Buchner — Double, blue lilac.

Mme. Lemoine — Double, white.

President Grévy — Double, blue.

Thunbergi — Double, dark lilac.

Each Per 10

Viburnum (continued)

Each Per 10

Nanny Berry

lentago Creamy white flowers in May. Glossy black fruit in autumn.

4 to 5 feet 2.00 17.50

opulus sterile Common Snowball

Large heads of white flowers in spring.

2 to 3 feet90 8.00

3 to 4 feet 1.25 11.00

sieboldi Siebold's

Best of all screen plants, scarlet fruit turning to black. Heavy grower.

3 to 4 feet 2.00 17.50

All the Viburnums grow well in partial shade.

STEPHANANDRA flexuosa

Cutleaf Stephanandra

Glossy, deep-cut leaves and slender grayish stems. Flowers are inconspicuous, but autumn foliage is brilliant.

2 to 3 feet 1.00 9.00

VIBURNUM Carlesii

Fragrant or Mayflower Viburnum

Outstanding dwarf shrub, with clusters of intensely fragrant white or pale pink flowers in early spring. Should be planted in a sheltered place, in sunlight or half-shade, with good soil.

2 to 2½ feet 3.50 32.50

cassinoides

Wither-rod

Long, narrow leaves, white flowers June and July. Blue-black fruit attractive to birds.

3 to 4 feet 1.60 15.00

dentatum

Arrow-wood

A good shrub for shady or sunny places; glossy foliage, white flowers, steel-blue berries.

3 to 4 feet 1.60 15.00

dilatatum

Linden Viburnum

White flowers May, June. Red fruit fall and winter. Showy, good.

4 to 5 feet 2.00 17.50

WEIGELIA candida

Snow Weigelia

Trumpet-shaped white flowers in early June.

4 to 5 feet 1.60 15.00

Eva Rathke

Spreading habit, with dark red flowers.

18 to 24 inches90 8.00

2 to 3 feet 1.20 10.00

Feeri

Grows to 6 feet; one of the finest Weigelias. Pink flowers in profusion.

3 to 4 feet 1.50 13.50

Gustav Mallot

Crimson Weigelia

Vigorous upright growth; crimson-red flowers in June.

3 to 4 feet 1.40 12.50

rosea

Pink Weigelia

Well-known pink variety; good foliage and strong growth.

3 to 4 feet 1.20 10.00

HEDGES

Many of the flowering shrubs are adapted for hedging and screening purposes. The usual varieties, however, are the following. In general, a single row of plants is sufficient, setting them one foot apart. The Barberries are dwarf; but the Privets may be trimmed to any height up to four or five feet.

Per 10 Per 100

JAPANESE BARBERRY (Berberis thunbergii)

Best variety for a low hedge having an ultimate height of three feet or less. Spiny branches and showy red berries. Extremely hardy.

15 to 18 inches 4.50 40.00

AMUR RIVER PRIVET (Ligustrum amurense)

Upright-growing and hardy, withstanding the most severe New England winters.

3 to 4 feet 7.50 60.00

Per 10 Per 100

CALIFORNIA PRIVET (Ligustrum ovalifolium)

Probably the most popular of hedge-plants. Glossy foliage; rapid, upright growth. Considered hardy in New England but occasionally suffering from extreme winters, when it may need to be trimmed almost to the ground.

18 to 24 inches 3.50 25.00

IBOLIUM PRIVET (Ligustrum ibolium)

Vigorous, upright but twiggy growth; very hardy.

18 to 24 inches 3.50 25.00

Let our Landscape Department plan and plant your garden. We have architects to draw up plans, trained crews to plant the materials, and complete equipment to do the work efficiently and to your satisfaction.

FRUIT TREES

Apples

Each	10
2 year	\$2.50 \$22.50

Quantity prices to orchardists on application

SUMMER—

Red Astrachan—Crimson, 2 year.
Yellow Transparent—Yellow. Fine quality.

AUTUMN—

Gravenstein—Striped. 2 year.
McIntosh Red—Waxy red. 2 year.

WINTER—

Baldwin—Bright red. Fine keeper. 2 year.
Cortland—Red. Fine new variety. 2 year.
Delicious—Dark red. Fine quality. 2 year.
Northern Spy—Red; crisp and juicy. Good keeper.

Pears

\$2.50 each

Bartlett—Yellow and red.

Beurre Bosc—Russet.

Seckel—Brown.

Crab Apples

\$2.75 each

Hyslop—2 year. Yellow with crimson overlay. Late September to October.

Cherries

Hansen's Bush Cherry—Sensational new fruit; delicious cherries borne on arching branches; grows from 4 to 5 feet tall. Often bears the first year planted. Can be used for ornamental as well as practical purposes. Covered with pink blossoms in early Spring; foliage silvery green turning to red and gold in the fall.

\$2.00 each; 3 for \$5.50

Bing—Very sweet; solid black flesh; grows almost anywhere. \$2.50 each

Peaches

\$2.00 each

Champion—Early August. A white Peach of superior quality.

Elberta—Early. August. Orange-yellow, flushed red. A fine commercial Peach.

Hale Haven — Early midseason. Yellow freestone.

J. H. Hale—Early August. Large golden-yellow fruit of high quality.

BERRIES AND SMALL FRUIT

Blueberries

Ornamental as well as wonderfully practical. With a minimum of care, these shrubs will provide plenty of berries for home consumption. Foliage turns bright red in Fall. At least two varieties should be planted to insure cross pollination.

Rancocas—Early; large berries.

Rubel—One of the finest blueberries; matures shortly after Rancocas.

Jersey—Large, light blueberries. Ripen same as Rubel.
\$2.50 each; 3 for \$7.00

Raspberries

\$2.00 for 10; \$18.00 per 100

Chief—Red; early; firm fruit. Very hardy plants, mosaic proof.

Indian Summer—Fine, large red; everbearing. A recent introduction of merit.

Latham—Very large, bright red, the preferred berry for home use. Late.

Asparagus Roots

2-year roots, 25 for \$2.00; 50 for \$3.00; 100 for \$5.00

Mary Washington—A rust-resistant, tender variety considered the standard home-garden sort. Roots should be set about a foot apart and 12 inches or more deep. Light, sandy loam is best for growing Asparagus. Dress with a good vegetable fertilizer each Summer after the cutting-season.

Strawberry Plants

Runner-plants in April and May only:

25 for \$2.00; 100 for \$6.00; except "Gem"

Catskill—Midseason. A variety which yields heavily in all sections of New England. Berries of good size, excellent quality. Strawberries are an outstanding source of Vitamin C.

Dorsett—Early; very prolific bearer; large sweet berries. Can be grown on fairly poor soil.

Gem—An improved "everbearing" Strawberry that carries fruit well into September, especially if the first blossoms are picked off in June. The berries are dark red, sweet and of uniformly good size. 25 for \$2.50; 100 for \$9.00.

Howard 17—Midseason. One of the older Strawberries which succeeds practically everywhere in New England. Berries of rich flavor and dark color.

Fairfax—Midseason.—The standard of quality in the Boston market. It grows best in a warm, sandy loam, not too dry. When fully sun-ripened the berries are very dark red, large and high-shouldered, of sweet, rich flavor that cannot be excelled.

Streamliner—Sensational new everbearing strawberry. One of the finest ever produced. Large, sweet delicious fruit from July to frost.

25 for \$3.75; 100 for \$14.00

Blackberries

\$2.00 for 10; \$18.00 per 100

Eldorado—Tall, spreading plants; fruit large, jet black, pleasantly flavored. Quality very good. Early Midseason.

Grape Vines

In proportion to the small space that they occupy Grapes yield unusual dividends in fruit that has many uses. The ideal soil for Grapes is a gravelly clay; but they grow well in any good loam which does not dry out in Summer. Bonemeal or crushed bone is the best fertilizer. Set the vines at least 10 feet apart, in a sunny place. Grapes are a good source of Vitamin B-1.

3-year plants:

\$1.00 each; 3 for \$2.75

Concord—Black; late. An old and popular variety.

Brighton—Red; midseason. Large fruit of pleasing sweetness.

Niagara—White; late. Best white Grape for New England.

Worden—Black; early. Fine quality.

Fredonia—Black; early. Extra good quality.

Outstanding ROSES

See pages 19 and 20

EDITOR McFARLAND. Well known and loved for its large, clear, pink flowers.

PAUL'S SCARLET CLIMBER.
Best of red climbers. Profusely covered with large, perfect blossoms.

ETOILE DE HOLLANDE. Striking glowing red blooms.

HARDY ROSES FOR NEW ENGLAND GARDENS

The Roses of this class are best for cut-flowers and general garden planting, because they bloom continuously all summer, and their range of colors is of all hues. Garden Roses should be spaced not less than two feet apart; they grow best in rich soil with plenty of moisture and sunlight. In exposed locations, winter protection is recommended.

The supply of roses this year is unusually small, order early and avoid disappointment. All orders filled according to date received.

Price — \$1.50 each unless otherwise noted

Ami Quinard — Fragrant, blackish garnet and coppery scarlet, semi-double, profuse bloomer. Foliage large, vigorous growth.

Autumn — Beautiful double burnt orange streaked red. Dark green foliage, free blooming, fragrant.

Betty Uprichard — Coral-pink outside, flesh-pink inside the petals. Very fragrant.

Briarcliff — Very large, high-centered, fragrant. Deep rose pink at center, lighter on outer petals.

Caledonia — Pure white, fragrant; very double and high-centered.

Christopher Stone — Vivid scarlet, overlaid with velvety crimson with intriguing old-rose fragrance. The flowers are large, semi-double, showing a central tuft of golden stamens.

Condesa de Sastago — An exotic Oriental red and yellow Rose that is showy but not obtrusive in its bold coloring. Flowers large and double; foliage a distinctive glossy dark green. Growth is vigorous; flowering is profuse.

Dame Edith Helen — Beautiful, large, fully double pink flowers. Very sweet fragrance; always in bloom.

Dickson's Red, Pat. 376 — Large, double, delightful spicy fragrance, velvety crimson-scarlet. Dark foliage, long strong stem. \$2.25 each

Eclipse, Pat. 172 — Distinctive, long-pointed, deep gold bud. Opens to very large, fragrant, reddish-gold flower. Very vigorous and bushy. \$2.25 each

E. G. Hill — Deep, dark red; inside soft and velvety. Deliciously fragrant; continuous bloomer.

Edith Nellie Perkins — The outside of the petals is translucent red shaded with cerise-orange, inside salmon-pink flushed with orange-gold. The plant is vigorous and bushy with few thorns. The flowers open well and are moderately fragrant.

Editor McFarland — Glowing clear pink with slight yellow suffusion. The opening bud is beautifully formed, on long, thornless stems; the mature blooms are large, semi-double, and very fragrant. We consider it a worthy tribute to the great rosarian whose name it bears.

Etoile de Hollande — Scarlet-crimson buds, opening to fragrant, glowing red flowers of good size.

Golden Dawn — Golden yellow, stained with coppery-red in the bud. One of the best yellows.

Grenoble — Fragrant red rose of vigorous growth, free-flowering. Very satisfactory.

Joanna Hill — Very vigorous grower; large flowers of rich yellow with touches of bronze in center. Fragrant.

Kaiserin Auguste Viktoria — One of the best white roses; buds stained with lemon yellow. Fragrant.

Margaret McGredy — A high-centered, large, fragrant flower of unique orange-scarlet. Like all McGredy roses, it is of vigorous growth.

Mary Margaret McBride (Pat. 537) — Excellent for cutting; long stemmed, salmon pink flowers with gold base. \$2.25.

McGredy's Scarlet — Velvety crimson-scarlet, with a touch of orange at the base of each petal. The flower is high-centered, double, with faint fragrance. The plant has characteristic McGredy vigor and heavy, leathery leaves.

Merouw G. A. Van Rossem — Dazzling orange and apricot on golden yellow ground. Dark leathery foliage.

Mirandy (Pat. 632) — Finest of red roses; long-pointed rich red buds opening to a lighter shade. Deliciously fragrant. \$2.25.

Mrs. E. P. Thom — Long-stemmed, clear, deep canary-yellow, beautifully formed large double flower.

Mme. Jules Bouche — Pure white, tinged and streaked with pink. The best white in our opinion.

Mme. Joseph Perraud — A rose which is gaining in popularity because of its beautiful two tone effect; nasturtium orange; refreshingly fragrant.

Mrs. Pierre S. DuPont — One of the best profuse-blooming of the yellow Roses. Its buds are pointed, red-gold color; the open flower is semi-double, golden yellow, with mild fragrance. Ever since its introduction this Rose has been rated with the best.

Mrs. Sam McGredy — A rose notable for its lovely bronzy foliage as well as the gorgeous scarlet orange flowers which become coppery as they mature.

Pink Glow — The name itself describes this rose. Hardy, little known, beautiful.

Pink Radiance — Intensely fragrant; exquisite soft pink double blossoms; blooms throughout the season.

Poinsettia — Here is a rose that will provide constant bloom of bright, unfading scarlet flowers. Compact, vigorous grower.

President Hoover — Long pointed bud, flower with varying orange shades inside, outside petals lighter. Tall growth, abundant bloomer.

Sister Therese — Very large golden yellow blossoms, edges marked with carmine bronze, leathery foliage. Vigorous bush grower.

Souvenir de Claudius Pernet — Clear light yellow, with glossy foliage.

Rouge Mallerin — Brilliant red, high-centered flower with intense Damask fragrance. Compact grower.

Sunburst — Large, double-flowering, combining the brighter colors of an early sunrise.

Talisman — Long known to rose-lovers. Golden yellow and copper flower, very fragrant. Vigorous, dark green leather foliage.

The Doctor — Unbelievably large, fragrant, satiny pink flower. This rose will please and astonish you.

Climbing Roses

The hardy Climbing Roses have a distinct place as decorative plants. They grow best in a sunny location, with rich, not too dry soil. We do not use the term ever-blooming when describing climbing roses. The climbers usually bloom on the previous year's growth. We cannot claim honestly that climbing Roses are ever-blooming.

(Dormant plants are not recommended after May 15)

American Pillar—A never-to-be-forgotten sight when in bloom. Huge clusters of large single flowers; scarlet with white centers. An outstanding variety.

Climbing American Beauty—Double carmine-pink; a dependable climber. Very large flowers.

Dorothy Perkins — One of the old-fashioned Rambler roses, soft pink.

Dr. W. Van Fleet—Pale flesh-pink; flowers well-shaped, double, with long stems, making them good for cutting.

Mary Wallace—This much-loved climber has large flowers of warm rose-pink, semi-double, cup-shaped, fragrant. Its blooming season is June to July.

Mme. Gregoire Staechelin (Spanish Beauty)—Buds deep carmine, opening to large pearl-pink flowers with carmine splashes on outside of petals.

New Dawn — Ever-blooming blush-pink, covered with blossoms. \$2.50 each.

Paul's Scarlet Climber—Surely the most vivid color of all the climbing Roses: Scarlet, shaded with bright crimson. The large flowers are abundantly produced in June, loosely clustered on vigorous canes that often reach a 'teen height.

Primrose—Pale yellow, full-double blossoms of medium size. Good grower.

Silver Moon—The large, semi-double, wide-open flowers are ivory white, with an amber glow at the base of each petal and alluring sulphur-yellow stamens. This Rose is of very vigorous, rapid growth, with distinctive bronzy, waxy foliage. It blooms freely in June. No other Rose is like it.

Hybrid Perpetual Roses

This class of Roses is of heavier growth, and somewhat hardier, than the Hybrid Teas. They bloom in June profusely, with a scattering of late blossoms in August, excepting newer varieties designated as "everblooming" which have the continuous-blooming habit of Hybrid Tea roses.

Dormant Plants—

\$1.50 each; \$8.50 for 6

Frau Karl Druschki (Snow Queen, White American Beauty)—For 40 years this fine Rose has been included in every list of favorites. Not only is its paperwhite blossom a glorious thing but it succeeds almost universally for the novice as well as for the professional grower. Its flowers often measure 5 inches across. Occasionally they show a slight flush of pink at their centers.

General Jacqueminot—Blossoms all summer long; rich crimson scarlet; sweetly fragrant.

Henry Nevard—Velvety crimson, fragrant; one of the ever-blooming varieties. Very large flowers. Bushy grower.

Paul Neyron—Carmine-pink, very large, fragrant flowers. Long stems grows to four feet.

Polyantha and Cluster Roses

This is a dwarf, compact type of bedding roses, bearing relatively small flowers in clusters. The so-called "Baby Ramblers". They bloom continuously throughout the summer.

PRICES

Cecile Brunner—“The Sweetheart Rose.” Its double pink flowers are perfectly-formed miniature roses, borne in clusters; the plants are of dwarf habit, and flower throughout the summer.

Dainty Bess—A lovely soft pink single rose with darker center. Very free blooming. Exquisite.

Else Poulsen—Sparkling pink, large flowers in loose sprays. It grows 3 feet tall, with good foliage, making it a most decorative plant.

Ideal—Very aptly named; covered with dark red blooms all season.

Poulsen's Yellow—Deeply fragrant; copper bud changing to yellow as the flower opens.

Miscellaneous Shrub Roses

Rosa rugosa (Species)—The “Father Hugo Rose” or “Golden Rose of China.” This shrub rose is very decorative, with arching branches loaded with short-stemmed, single yellow blossoms in early spring. Dense, vigorous growth reaching six feet or more in height; foliage resembling that of a brier rose. Dormant plants, \$1.50 each.

Rosa rugosa (Species)—The original wild type from northern Japan. The large single flowers are usually reddish-pink, but somewhat variable in color. Foliage luxuriant, deep green. Showy red seed-hips in late summer and fall. This shrub-rose is much used for hedges. \$1.00 each; \$5.50 for 6.

Rosa rugosa alba—Same as *R. rugosa*, but with single white flowers. Same prices.

Wichuriana—Especially good ground-cover for difficult slopes; very hardy. Dainty white clusters bearing red seed hips in Fall.

\$1.00 each — \$5.50 for 6

Successful rose culture demands adequate food for the plants, and regular spraying to prevent damage by insects and diseases. In our opinion, the following two items are a "must" for rose gardeners.

ROSE FOOD 7-8-5 — Designed especially for rose culture; made from highly recommended food elements to take care of the liberal feeding habits of the most popular Garden Plant. 5 lbs. 65c; 10 lbs. \$1.25; 100 lbs. \$9.60.

TRI-OGEN — The three-purpose spray for roses; controls aphid leaf-eaters, and fungous diseases at one application. Five sizes available: 90c, \$1.50, \$4.00, \$6.00, \$20.00.

SUMMER-FLOWER BULBS

TUBEROUS BEGONIAS—One of the most colorful plants for shady places, bearing large single or double flowers in a variety of brilliant colors all summer. Bulbs may be started in pots in March; or set out-of-doors May first.

Camelia-flowered—White, Salmon, Orange, Yellow, and Crimson.

Potted Plants (After May 15) \$1.75 for 3; \$6.50 per doz.

GLADIOLUS—Well-known summer flowers of easy culture. Bulbs planted in May or June blossom in about 90 days.

All Color Mixture—A “top-notch” mixture of many named varieties covering a wide range of colors, all large-flowered. \$1.00 per dozen; \$7.00 per 100.

DAHLIAS—Lack of space prevents descriptive listings. We can supply collections as follows, postpaid:

6 Decorative	\$2.00
6 Miniature	2.00
6 Cactus	2.00
6 Pompon	2.00

Hardy Lilies

Many lilies are unobtainable at the present time, we have on hand only the two varieties listed.

Canadense **Canada Lily**
The native yellow or orange lily, usually with several flowers on a three-foot stalk. Plant bulbs 5 inches deep. 35c each; \$3.50 for 12.

Candidum **Madonna**
Pure white waxy petals slightly recurved to expose yellow anthers. Will grow easily with reasonable amount of care. Potted \$1.25.

Regale **Regal Lily**
Perhaps the most popular garden lily. Huge clusters of white flowers, flushed yellow inside, stained deep carmine outside. Height about 4 feet. Plant bulbs about 8 inches deep. \$1.00 each; \$11.00 for 12.

Speciosum album
One of the most beautiful lilies. Gorgeous snow-white blossoms with faint green stripe along center of petal. \$1.50

Speciosum rubrum
Glorious deep red edged with white; very vigorous; large flowered. \$1.25

SUMMER BEDDING PLANTS

For many years we have specialized in raising strong, young plants of the popular bedding type from seed and cuttings. Since most of these plants are familiar to everybody, descriptions have been reduced to a minimum. All are individually pot grown unless otherwise noted. Ready at any time after May 15.

	Doz.	100		Doz.	100

Geraniums

LeBlanc—Unbelievably striking cerise blooms. Exceptionally fine habit of growth.
 Olympic Red—Finest of all reds. Clean, compact bushy grower.
 Ricard—Semi-double; bright vermillion-scarlet.
 Annie Vincent—Semi-double; bright pink.
 Beaute Poitevine—Semi-double; light salmon-pink.
 Pride of Camden—Brilliant red.
 Mrs. Lawrence—Soft pink.
 Radio Red—Double; dazzling, dark scarlet.
 Pink Fiat—Lovely soft pink.
 Wallingford—Deep salmon-pink.
 Sweet-scented—Rose and lemon. These fragrant-leaved plants should be in every garden, large or small.
 Above varieties, grown in 3½-in. pots
 60c each; \$6.50 per doz.; \$50.00 per 100

Cannas

These Lily-flowered Cannas give a tropical touch to a garden group of flowers, as well as being a preferred material for large, formal bedding. Set the plants 15 to 18 inches apart. 1-lb pot grown. \$2.75 for 6; \$4.50 per dozen; \$42.50 per 100.
 Hungaria—Green foliage; deep pink flowers. 3½ feet.
 King Humbert. Bronze foliage; bright scarlet flowers. 4 feet.

The President—Green foliage; clear scarlet flowers. 4 feet.
 Yellow King Humbert—Green foliage; red-spotted yellow flowers. 5 feet.

VEGETABLE PLANTS

Though we lack space for listing vegetable plants, we are growing and selling them as in previous years. Prices remain the same as in 1946.

Lexington Heavy Pot Grown Bedding Plants

in bloom or bud when shipped. All individually grown in 2½ or 3 inch pots. See pages 21 and 22 for description and prices.

BELLIS	English Daisy	
<i>perennis</i> ★ Dwarf, flowering in May. Colors red, white, and pink.		

OPEN SUNDAYS AND EVENINGS DURING APRIL, MAY AND JUNE

HARDY CHRYSANTHEMUMS

In the season's flower parade, the Chrysanthemums, march as a major section. They are the outstanding glory of the late Summer and Fall garden. For Spring planting we supply pot-grown stock which will bloom the following Fall; and of our thirty or more varieties we suggest the following as especially pleasing.

Price: 45c each; 3 for \$1.35; 10 for \$3.50

YELLOW

Algonquin—Very double; 18 inches; September. An early, brilliant yellow of exceptional hardiness.
Eugene A. Wander—Full, double; 2 feet; early September. The golden yellow flowers are large and of graceful, informal shape.
Judith Anderson—Button Pompon; 18 inches; October. The best yellow "button" Chrysanthemum for late bloom. Free-flowering.
King Midas—Large, fully double soft yellow, tinted, bronze; very profuse bloomer. Late September.
Pygmy Gold—Double; 16-18 inches; early September. The low, spreading growth of this bright yellow variety and its long season of bloom, make it of distinct value for borders and for the rock-garden.

BRONZE

Apollo—Single Korean; 2½ feet; October. Sparkling orange-bronze flowers with gold centers, like glorified Daisies.
Autumn Lights—Semi-double; 2 feet; September. Coppery, dull bronze with orange shadings. One of the new, hardy introductions.
Early Bronze—Pompon; 18 inches; late August. An improved strain, one of the earliest of the hardy 'Mums. Rich, golden bronze.
Louise Schling—Outstanding among bronze mums. Plants are covered with semi-double blooms of a most attractive shade.
Marjorie Mills—Profuse blooms of red shading to orange; highly attractive; early.
Sunset—A new Chrysanthemum of exceptionally brilliant orange-bronze, with the glow of an Autumn sunset. The flowers are large, Pompon-type, borne profusely in long, upstanding sprays. 2½ feet; late September.

RED SHADES

Burgundy—Large double; 2½ feet; early October. A rare shade of glowing wine-red. Long, strong stems; a prolific bloomer.
Red Velvet—Soft, shapely velvety red blossoms, fully double. Strong heavy plants; blooms in mid-season.
Roberta Copeland—Double; 18 inches; mid-September. Raspberry-red, and the earliest red decorative type. The plant is spreading, reliably hardy, blooms profusely.
Vivid—Double; 2 feet; early October. The color is a rosy crimson that always attracts the eye in a mixed planting. An excellent Mum.
Romany—Carmine red with bronze tone; double.

PINK AND LAVENDER

Dean Kay—Medium sized double blossoms of a pink seldom found among flowers. Very popular.
Lavender Lady—Full-double; 2½ feet; early October. Pure lavender, large, perfect flowers. Rugged, hardy growth. One of the most distinguished Chrysanthemums ever produced.
Mrs. P. S. Du Pont III—Double; 2½ feet; October. A gorgeous blend of peach-pink; rosy salmon and fawn. Flowers fully double and finely formed. The favorite of all the recent hybrids.

Symphony—Beautiful coppery pink and soft lavender. Flowers very large, double. One of the finest mums in this color class. Wonderful keeping qualities, both in garden and as cutflowers.

WHITE

Ruth Hatton—Double Pompon; 2 feet; late September. Ivory white touched with lemon-yellow. The blossoms are of medium size but well-formed and borne in great numbers until the end of the season.
White Doty—Pure white pompon; 18 inches. September.

6 FINE CHRYSANTHEMUMS, \$2.25

Special Collection Offer

Symphony—Outstanding among pinks and lavenders.
Mrs. P. S. DuPont—Large, perfect flowers.
Golden Dream—Gorgeous large golden-yellow.
Burgundy—Double crimson-red.
Lavender Lady—Double soft lavender.
Ruth Hatton—Double ivory-white.

This is the most sensational collection of outstanding mums ever to be offered at this low price. Every variety is the finest in its particular color class and will afford a wealth of blooms for the border. They are all especially good for cut flowers because of their magnificent colors and long-lasting qualities.

CUSHION CHRYSANTHEMUMS

This interesting group of low-growing Chrysanthemums is marked by an unusual wealth of bloom, on plants that are of broad, mounded habit and less than 2 feet high. A mature plant, with its hundreds of blossoms, has the appearance of an exhibition Azalea.

Pink Cushion (Amelia)—Varying shades of pink; September.

Red Cushion. Coppery red.

Bronze Cushion—Reddish bronze.

Yellow Cushion—Golden yellow.

Orange Spoon—Curved petals of vivid orange with white tips; flowers completely cover plants; early.

White Cushion—Covered with snow-white flowers.

GROUP OFFER

All 6 (One Each of List) — \$2.25

PERENNIAL BORDER COLLECTION

This group of plants is designed for an area of approximately 40 square feet. In selecting the list, contrasts in heights, blooming season, and colors were the primary consideration.

- 3 **Aquilegia Chrysanthemum**—Yellow
- 3 **Aster Red Rover**—Red
- 3 **Chrysanthemums Pygmy Gold**—Yellow
- 3 **Iberis sempervirens**—White
- 3 **Heuchera sanguinea**—Rose
- 3 **Liatris pycnostachya**—Orchid
- 3 **Lupins Downer's Hybrids**—Mixed Colors
- 3 **Nepeta Six Hills Giant**—Blue
- 3 **Oriental Poppies**—Scarlet
- 3 **Cerastium**—White

Price: 30 plants, \$9.95

DICENTRA	Bleeding Heart	Plantain Lily
<i>spectabilis</i> —Long sprays of well-known heart-shaped, pendulous deep pink flowers in May.		<i>lancifolia undulata variegata</i> —Wavy foliage, marbled white.
Field-grown plants \$1.00 each		<i>ovata</i> —Broad foliage and sprays of lilac-colored flowers.

1 **Iberis Semperflorens Snowflake**—White

1 **Viola Jersey Gem**—Blue

1 **Sedum acre**—Yellow

1 **Sedum spectabile**—Pink

Price: 10 plants, \$3.45 — 20 plants \$6.50

LAWN SEEDS

→ GRASS SEED IS NOT ALL LAWN SEED ←

Briefly, the above tells a long story. That is why BOSTON PARK Lawn Seed is the choice of our Landscape Department. The test of a good lawn seed is after the first and second year, permanent grasses are slow to get established. Boston Park is composed of such grasses as will carry through and continue to give you that nice green, velvety, cushiony feeling. We highly recommend Boston Park Lawn Seed (no clover in Boston Park)—1 lb. \$1.15; 5 lbs. \$5.45; 10 lbs. \$10.25; 25 lbs. \$23.75; 100 lbs. \$90.00.

Shady Spot Lawn Seed—A companion to Boston Park. Can be sown with or along side of each other and do not clash in texture or color. 1 lb. \$1.35; 5 lbs. \$6.40; 10 lbs. \$12.25; 25 lbs. \$28.75; 100 lbs. \$110.00.

Bank and Terrace Lawn Seed—A combination of seed to stand drouth and heavy rain and still blends into the lawn picture. 1 lb. \$1.00; 5 lbs. \$4.75; 10 lbs. \$9.00; 25 lbs. \$21.00; 100 lbs. \$80.00.

Back Yard Lawn Seed—A strong growing grass seed mixture for hard usage and permanence, ideal for playgrounds. No clover in this mixture. 1 lb. 85c; 5 lbs. \$4.00; 10 lbs. \$7.60; 25 lbs. \$18.00; 100 lbs. \$68.00.

WE CAN ALSO SUPPLY FIELD AND GRASS SEEDS OF ALL VARIETIES

FERTILIZERS AND INSECTICIDES

(Prices subject to change)

BREXONE TURF GRO 8-6-2—A new and completely different formula based on the most recent and exacting research.

Higher major elements content in ample proportion for vigorous root and top growth, magnesium added for deeper color and no useless filler. 100 lbs. will feed 5,000 sq. ft.; 25 lbs. \$2.00; 50 lbs. \$3.30; 100 lbs. \$5.50.

DRICONURE or BOVUNG—One of the best natural fertilizers for Roses and other flowers. Composed of poultry and cow manure, mixed with peat-moss, it provides quickly-available plant-food and adds liberal quantities of humus to the soil. 50 lbs. \$2.25.

BREXONE GARDEN GRO 5-10-10-2—A top quality fertilizer for all vegetables and flowers, nothing has been spared in this post war period that would make a better combination, no waste, four liberal elements. 100 lbs. covers 2,000 sq. ft. 25 lbs. \$1.75; 50 lbs. \$2.95; 100 lbs. \$4.95.

ROSE FOOD 7-8-5—Designed especially for Rose culture made from highly recommended food elements to take care of the liberal feeding habits of the most popular Garden Plant. 5 lbs. 65c; 10 lbs. \$1.25; 25 lbs. \$2.65; 100 lbs. \$9.60.

HYTROUS (4-8-4) Liquid Fertilizer—Can be used on trees, shrubs, lawn or house-plants. One teaspoon full to one gallon of water. Easy to use and safe to apply. 3 oz. bot. 25c; 8 oz. bot. 59c; 16 oz. bot. 99c; 32 oz. bot. \$1.79; 1 gal. \$5.95.

PULVERIZED SHEEP MANURE—Quick-acting dressing for lawns and gardens. These pulverized manures are weed-free, the seeds being destroyed in process of drying and grinding. 5 lbs. 40c; 50 lbs. \$2.00; 100 lbs. \$3.50.

VIGORO (4-12-4)—A complete plant food for vegetables, lawns, flowers, shrubs. A square meal for the home surroundings. 5 lbs. 45c; 10 lbs. 85c; 25 lbs. \$1.55; 50 lbs. \$2.65; 100 lbs. \$4.25.

AGRICULTURAL LIME—Fine-ground limestone for correcting acid soil conditions. Usual application is 100 lbs. to 1000 square feet. 100 lbs. \$1.50.

COMPO—Added to compost of leaves and garden-waste, quickens their disintegration and produces humus of high plant-food value. Garden-size bag (25 lbs.) \$2.00; Trial size, 7½-lb. pkg. \$1.00.

PEAT MOSS—Standard bale, \$5.50; ½-bale, \$3.00.

ARSENATE OF LEAD—Kills leaf-eating insects; may be used as a dry dust or mixed with water. 1 lb. \$35c; 4 lbs. \$1.15; 48 lbs. \$10.50.

ANT KILLERS

Antzix—We heartily recommend it. Easy to use. Small Home Set 50c; Large Home and Garden set \$1.00. Syrup, 4 oz. bot. 50c; 1 pt. (16 oz.) bot. \$1.50.

Garden Lines and Markers	Plant Supports		Zotox

FLOWER AND VEGETABLE SEEDS

As in the past, we are stocking a complete line of Breck flower and vegetable seeds. Lack of catalogue space does not permit their listing. The list numbers and descriptions are the same as in our 1945 book, and in ordering please use those numbers.

Situated as we are in a town that played so great a part in shaping our country's history, it is only fitting that we try to project a part of its past into the present. What more permanent or fitting way could be found than building furniture reminiscent of Colonial days? Thus "Pinecraft" was originated.

Here at Lexington Nurseries we were fortunate in having both the facilities and craftsmen for such work and beautiful colonial pieces are produced by their skilled hands. Each piece is carefully fashioned both as to authenticity and appearance.

Beautiful Trestle and Tavern Table Sets, Cobbler's Benches, Corner Cabinets and Kidney Stools are but a few of the many items turned out here. Perhaps the most notable feature of this handsome furniture is the soft, golden brown hand-rubbed finish. This finish keeps its sheen for years and becomes more lovely as it grows older.

The construction of "Pinecraft" furniture is excellent. Nothing but the best of materials is used, and no time-saving devices which might detract from the sturdiness are employed. This painstaking hand-labor is reflected in the appearance of the furniture and at once distinguishes it from just "ordinary" reproductions.

One section of our Gift and Garden Shop is devoted exclusively to "Pinecraft." Here you may see at first hand the various items turned out at the Nursery. Besides the furniture shown, we gladly make up special pieces according to the customer's desires and specifications.

The sound of galloping hoofs, shouting "Redcoats" and the "shot heard 'round the world" are brought back into mind when you visit our nursery. "Pinecraft" reminds us all of our proud heritage and our furniture in your home will keep that spark alive.
